- Ladders and work trestles

For individuals working in

The course is aimed at people who deal with work environment issues during the planning and design stage (H&S Coordinator for Planning), as well as at people who coordinate work environment management during implementation (H&S Coordinator for Execution).

What does the legislation say?

According to the Work Environment Act, the employer must ensure that the employee has been given the required training and is aware of what he or she has to take into consideration in order to avoid risks at work.

- AFS 1999:03 "Building and civil engineering work"
- AFS 2008:16 Section 6 Persons working as H&S Coordinators must have received training.

Certificates/Authorisation

After passing theoretical tests, H&S coordinators are awarded a training certificate.

Prior knowledge requirements

You hold or will soon be taking up a supervisory position with overall responsibility for the work environment.

Training

Training regarding work environment coordination for the H&S Coordinator for Planning and the H&S Coordinator for Execution is a requirement for an approved construction site environment. On 1 January 2009, the Work

Environment Act was amended in respect of building and civil engineering work. The client must appoint an H&S Coordinator for Planning and an H&S Coordinator for Execution. Our course is aimed at anyone in a supervisory position with overall responsibility for the work environment. After passing the final test, you can work as a health and safety coordinator.

Conditions

Registration is binding and the billing of course fees takes place within two weeks following registration. If you need to cancel your participation in the course, we have to receive the cancellation seven working days prior to the start of the course.

In the event there are insufficient registered participants or in case of some other valid reason, such as the course leader becoming ill, we will get back to you with alternative course dates. If you cannot find a suitable date and you are a group of around ten people, we are happy to consider an alternative arrangement specifically for you.
